

# Practicing Child Psychiatrists in Rhode Island

## Community Directory

August 2002

### Alphabetical Listing

As part of the community health clerkship at Brown Medical School, Michelle Conroy, a fourth year medical student, and Sandi Kazura, MD, developed a resource guide that contains information on practicing child psychiatrists in Rhode Island. The community directory, which is accessible to the general public, can be viewed below.

If you are a pediatrician and require backline phone numbers, you may find further information on the RIAAP website, [www.riaap.org](http://www.riaap.org). In order to access this page, you will need the user name and password given to Academy members. Follow the physician directory link to pediatric specialties, and then to child psychiatry. The guide contains general biographical information on child psychiatrists, as well as availability to new patients, insurance(s) accepted, interpreter services, and specialty interest.

This site was created with the support of the RI Chapter of the American Academy of Child and Adolescent Psychiatry, and the American Academy of Pediatrics. Also, a special thanks to Andy Synder, MD, and Alison Buckser, MPH, for their help in developing the site. We hope our guide is helpful in you.

(A list of Inpatient Bed Availability and Partial Hospitalization Slots for Children with Mental Health Needs in Rhode Island is available on the last page of this document.)
